

# INCOGNEETO™

INVISIBLE UNDER-COUNTER WARMER

## PERFORMANCE

The CookTek® Incogneeto™ is an under-counter buffet warmer designed to mount under natural stone or “engineered” stone countertops – no cutting of the stone is required. The Magneeto™ II trivet (one included with purchase) is placed on the countertop and acts as a temperature sensor, communicator, and locator, allowing efficient heating of any induction-compatible pan through the stone countertop. \*

## FEATURES

- 650 W models available
- Available in 100–120 or 200–240 VAC, single phase
- Under-the-counter design with a polycarbonate top and aluminum housing
- Included Magneeto™ trivet locates heat zone when placed on the countertop
- Accommodates up to a 12” (305 mm) induction-compatible enamel cast ironware or traditional chafer
- Can be safely used under natural stone or engineered “stone” countertops
- Automatic pan detection allows for instant energy transmission to pan; almost no energy consumption when pan is not present
- Lock feature prevents unwanted setting changes

## STANDARD INCLUDED ACCESSORIES

- Magneeto™ II Trivet (#INC-3000)
- 18” mounting frame
- One-year field-service warranty (U.S. and Canada)
- 6-ft (1.8 m) nominal plug and cord
- Standard Cat 5e or Cat 6 patch cable from unit to control box

\*Induction buffet units require the use of induction-compatible (i.e. magnetic) cookware.

It is the owner and installer’s responsibility to comply with all local codes. CookTek reserves the right to make component substitutions or change specifications without prior notice.
